Subject: Microsoft Settlement

Dear DoJ

Call this proposed settlement 'Justice' - it doesn't reflect the earlier findings of fact regarding Microsoft's conduct, doesn't punish Microsoft and further, won't stop them doing the same thing again.

They must be really laughing at you guys - you've been stooged!

Alex Mucha

(I'd suggest you read analysis in the technical press, which is understandable for the non-geek such as at www.theregister.co.uk to get some idea of what you've missed)
